

To help your cat enjoy a happy, healthy life

Cats	Basic	Essential	Comprehensive	Premier	Premier Plus
<p>Basic Chemistry Profile</p> <p>A blood chemistry profile, including SDMA, that provides information about your cat's organ functions, as well as other functions of the body, such as blood sugar and hydration. A CBC can identify infection, inflammation, and anemia.</p>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Complete Urinalysis</p> <p>This analysis assesses the overall health of your cat's urinary tract, including the kidneys and bladder. It identifies infection or inflammation in the urinary tract.</p>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Advanced Chemistry Profile</p> <p>A blood chemistry profile that provides deeper insight than the basic chemistry profile. The profile provides information into your cat's organs including liver, kidney, gallbladder, and pancreatic function, as well as blood gases.</p>		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Thyroid Function Test</p> <p>A thyroid function test detects whether or not your cat's thyroid gland is functioning properly. Thyroid disease is very common in older cats.</p>			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Fecal Test</p> <p>A microscopic examination of your cat's feces that will detect the presence of intestinal parasites, or their eggs, such as roundworms, whipworms, or hookworms.</p>				<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Infectious Disease & Virus Screening</p> <p>This screening identifies whether your cat has been exposed to heartworms, FeLV, or FIV.</p>				<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Advanced Urinalysis</p> <p>The UPC Ratio is a test that measures how much protein is being lost through the kidneys, and can help detect signs of renal disease.</p>					<input checked="" type="checkbox"/>
<p>Feline proBNP Heart Disease Screening</p> <p>This screening test provides an assessment of your pet's heart health through a blood test.</p>					<input checked="" type="checkbox"/>

- Supports detection and intervention of potential underlying diseases
- Provides baseline values unique to your cat that can be tracked over time for subtle changes
- 1 in 7 adult pets and 1 in 5 senior pets have abnormal results*
